

## Wilderness PSD Private Pool Filling and Bulk Water Sales Policy

The policy provides three approved methods to fill pools or obtain bulk water;

1. The pool can be filled from the home owner's metered connection.
2. The home owner can hire a private water hauler to haul water obtained from the Water Treatment Plant.
3. The home owner can request the local VFD haul water obtained from the Water Treatment Plant.

Note: Before hauling water from the Water Treatment Plant, all haulers are required to purchase water at the water office located at 589 Riviera Rd, Mt. Nebo, WV and sign the waiver for bulk water sales.
